ELECTRICALLY OPERATED CURTAIN TRACKS

System 5090 Basic

Lets you control the System 5090 at the touch of a button using a fixed wall switch.

System 5090IR with Remote Control

Ease of use is improved with the addition of an infrared remote control allowing you to operate the curtains from the comfort of your seat.

System 5090TL with Timer Light Unit

With the Timer Light Unit, the opening and closing can be controlled using the wall switch, a timer or the light sensors or a combination of all three.

System 5090TC Total Control Unit

Total Control means you can combine the TL & IR options giving you a totally flexible system.

For further details see Electrically Operated section.

Curtain Heading System

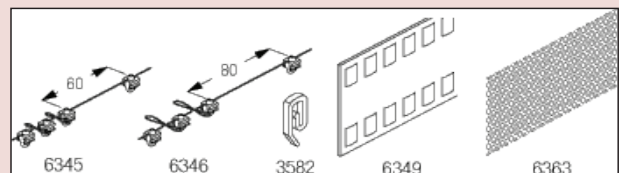

The curtains offer a smooth, continuous wave effect. The Wave heading stacks back neatly, taking up less space than most tradition pleated headings. The Wave glider-cord is not visible when the curtain is fully closed. The simple yet stylish design of the Wave heading means curtains are easy to make up with special cordless 70mm tape. Sew along the top of the curtain, the pockets are in exactly the right position for the track system. Depending on the fullness of curtain selected, Wave can be as economical as standard 1" tape but much more stylish. When taken down, the curtain is flat for easy cleaning.

Available with the following systems: 3840 uncorded and corded, Metropole 30mm uncorded and corded, 50mm uncorded and Autoglide all models.

The Wave components are:

- 6345 Glider Cord 60mm
- 6346 Glider Cord 80mm
- 3582 Hook
- 6349 Curtain tape
- 6363 Iron-on top hemming tape

DECORATIVE TRACKS

Modal – Aluminium Track

The profile can be bent easily by hand in and out of bay windows.

The over-slung gliders have a nylon liner, the stainless steel brackets allow for top or face fixing.

Brackets have a magnetic cover to ensure an elegant finish to the fitting.

The flexibility and strength of the profile allows a curtain overlap to be bent and so ensure complete closing of their curtains, saving energy and eliminating light creep.

Available in Anodised Black or Anodised Silver.
