

Make it Safe Reduce the Risks

Est: 1987

The Campaign

The British Blind and Shutter Association has led the development of the child safety aspects of the only European Standard for internal blinds (EN 13120). The 'Make it Safe' campaign, organised by the BBSA & supported by its members aims to eliminate the risks to children associated with the use of hazardous looped operating cords, chains and tapes used in the manufacturing and installation of window blinds.

Reduce the Risks

- Looped blind cords & chains can be hazardous and some times fatal to children and vulnerable people.
- Ensure you install safety devices to existing blinds and only sell blinds that comply with child safety requirements.
- Inform your customers of the new standards and make sure they know how to make their existing blinds safer too.

At Loveless Cook Blinds, we take the safety of our customers and their families very seriously and for that reason, as a BBSA member, are pleased to support the 'Make It Safe' campaign.

By Law: All internal blinds sold must comply with the 2014 standards

By Law: Professional installers must fit compliant (safe) blinds in all homes

Chainless Vertical Blinds

Est: 1987

Vertical Symbolise sophistication with your choice of trend colours, design and texture. Vertical blinds have been brought up to date with a fresh colour injection and inspirational designs to suit your interior style. Finishing your vertical blind with chainless bottom weights not only looks sleek but also reduces the risk of unsafe loops in your home creating a child safe window dressing.

Perfect Fit Blinds

The award winning Perfect Fit Blinds are stylish and practical. One of the unique features of the Perfect Fit™ frame is its outstanding thermal efficiency.

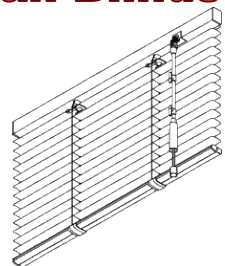

The unique Perfect Fit™ blind fits neatly onto the window and enhances your privacy because there are no gaps down the side of the blind. Child safe because there are no loose cords or loops. Leaves window sills clutter free & is easily removable for cleaning.

PERFECT FIT
LOUVOLITE®

Venetian blind system for domestic or contract applications with 16mm aluminium slats. Small headrail which allows fitting in narrow window frames. Unique user-friendly control wand, combining tilt operation of slats with integrated cords for fast raising/lowering of the blind. The system 8100 can be equipped with side-guide wires & can therefore be used for sloped applications up to 15° incline from vertical.

Wand Operated Venetian Blinds

Electrically Operated Systems

Est: 1987

Electrically Operated Roman Blinds

System 2350

A revolutionary cord release mechanism combined with Velcro tape fixing makes maintenance and cleaning very easy. Weight of the blind including bottom & cross rods (if hard fold) can go up to 15kg. Easy ceiling or wall fix. Motor concealed in headbox. Can be operated by fixed switch or Silent Gliss radio control system 0450. Headrail system only, or made-up blind.

Solar Powered Remote Control Blinds

A battery operated remote control blind, which puts daylight control at your fingertips. Elegant and practical, it can be set to any position on the window. It uses solar power to recharge the batteries in the remote control.

- Simple to install, No wiring!
- You can operate the blind from anywhere in the room.
- Battery recharged by solar power, so no need to change the battery.
- Comes as a single package and includes: motorized blind, batteries and remote control.

Est: 1987

Remote Control Roller Blinds

Control your roller blinds using a Somfy remote control handset. Your blinds can be raised, lowered and preset to adopt the ideal position, effortlessly, at the touch of a

You can choose full automation, controlling your blinds with a timer so that it looks like someone is home, even when you're on holiday. A light sensor means your blinds will automatically adjust when there's bright sunshine, protecting your furnishings from bleaching & your plants from drying out.

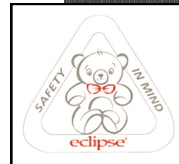

eclipse

Electrically Operated Vertical Blind

- Control at your fingertips
- Night and day function for flexibility & security
- Left, right and split draw options available
- Easy to use and install 'plug & play'
- Made to measure Impala Headrail
- No programming
- Safety in Mind product

Intu Blinds

Est: 1987

The newly developed "Click to Fit" system means that blinds now click straight onto the brackets without the need for locking screws, making INTU blinds even faster & easier to install.

Cellular Blinds

Using a unique honeycomb fabric, Intu is able to give you a blind with superior insulation & a modern look.

Each "honeycomb cell" in the fabric traps air, keeping your room cooler in summer and warmer in winter. Light but extremely strong structure that holds its shape & gives your room a contemporary feel. No need for cord loops, making it especially safe for children. Ideal for all modern windows including tilt & turn. A wide variety of colours to choose from.

Multizone Blinds

Multizone is a feature for any Intu Pleated or Cellular product, providing limitless options for height control and privacy. This innovative design means that you can move your blind from the top down as well as the bottom up.

The blind can be set at the exact position you require, to provide the shade that you want whilst still allowing light into the room. Especially suitable for providing privacy in ground floor and basement flats, and shade for computer screens.

Slow-Rise System

senses

Senses 'Slow-Rise' has been designed to fully address concerns over safety. Young children can be in danger of strangulation from the loops of pull, chain and bead cords. The Senses 'Slow-Rise', which is completely cord and chain free, has been developed in the UK by our exceptional team of designers & tackles this worrying problem head on.

Safety Steps for Customers

Our suppliers are working to put Child Safety first with all of their products because it is such an important issue. A few even have their own safety devices and mechanisms, either built in or as separate components, so that they ensure the safety of children and vulnerable people.

1. Secure all blind cords and chains using a safety device.
2. Don't place a child's cot, bed, highchair, playpen near to a window blind.
3. Don't put sofas, chairs, tables, shelves or bookcases near to a window blind.

Child Safety Symbols to look for:

All BBSA members have to comply with the child safety aspects of this standard. Loveless Cook Blinds Ltd is a member of the BBSA and proud to be a 'Make It Safe' approved supplier.

We can give you information on how to make existing blinds safer and how to install the new safety devices. You can see much more safety information, including videos at: www.makeitsafe.org.uk
