BLIND CONTROL FROM *anywhere in the world*

WITH LOUVOLITE ONE TOUCH® MOTORISATION

roller | vision® | roman | pleated | cellular
perfect fit® | vertical | visage® | allusion®

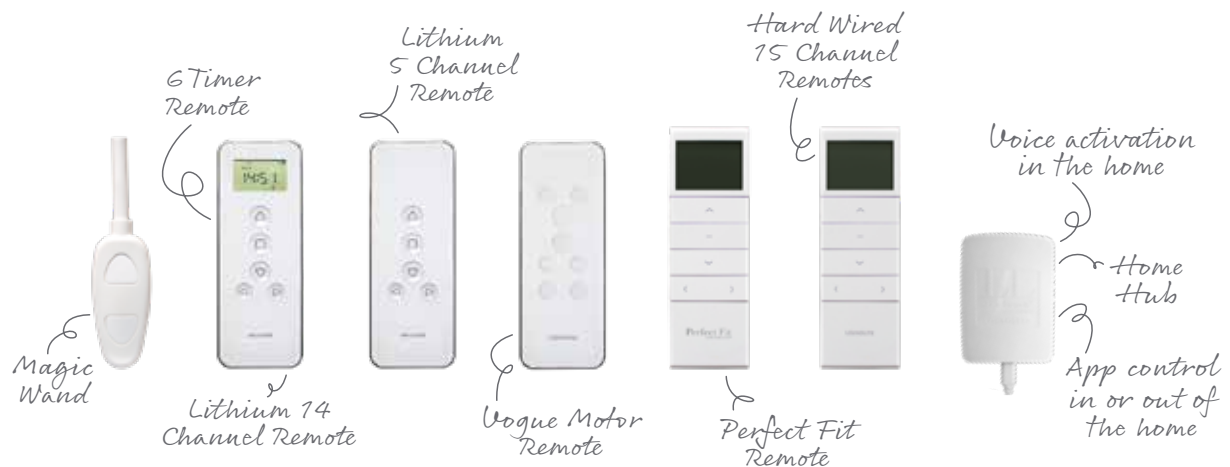

The way we use our homes is changing and because of that we have developed our One Touch® family so your customers can do more living. Simple, convenient and easy to use, Louvolite One Touch® makes luxury affordable with motorisation accessible to all.

An innovative range of battery operated and mains powered blinds your customer can operate multiple blinds with remote control, voice activation with Amazon Alexa and Google Home or control them while away on holiday with our app!

Our fantastic timer remote and app allows your customer to pre-set their blinds for convenience or added home security when they're out.

The rechargeable battery powered solutions remove the need for mains wiring, making it easy to install and without disruption to the home's decoration.

Louvolite One Touch® is a popular choice for the multiple windows in conservatories, shading large bi-fold doors or just for those that want easy blind operation on the go or from the comfort of the sofa.

KEY BENEFITS

- Innovative yet affordable contemporary technology for the modern home and office.
- Child safe by design.
- Simple, convenient and easy to use.
- Operation can be with a unique wand that hangs neatly next to the blind, with remote or voice control within the home, or with the app from anywhere.
- Control multiple blinds individually or all together.
- Improved home security using the timer remote or app to control the blinds when out or away.
- Straightforward assembly enables blinds to be made and installed quickly.
- Mains powered system also available for larger blinds.

BE ON THE GO WITH the app and home hub

The Louvolite Home Hub connects to WiFi so that motorised One Touch® window blinds can be operated straight from a smart device.

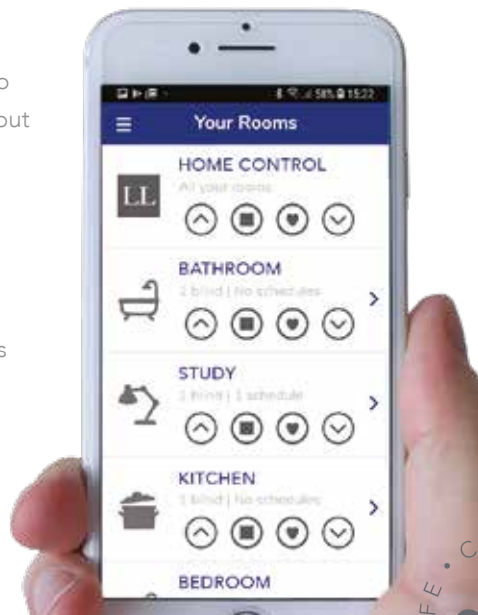

Your customer just downloads the free and easy to install app, pairs their blinds to operate them separately or together from anywhere on their phone!

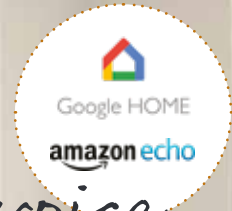

The hub and app works with existing Louvolite One Touch® blinds too.

It's excellent for privacy and security with the ability to open or close the blinds when they're out at work or away on holiday.

Installing the home hub makes life easier by offering the ability to control all their window blinds in a number of different ways. They can be operated by remote control, using voice control with **Amazon Alexa** or **Google Home** or via the app on their smart device whether they're home or on the go.

- The Louvolite Home Hub connects via WiFi and operates the One Touch® Lithium 1100 Series and A/C 1500 and 6000 Series motors.
- Use voice control to open or close the blinds with Amazon Alexa, Dot and Echo and Google Home.
- Improves home security with the ability to open or close the blinds when at home, out or away on holiday.
- Free, easy to use app available for IOS and Android.
- Use smart phones or tablets to view the rooms in the home and control the blinds within them.
- Control up to 15 blinds per room, individually or all together.
- Child safe by design.
