What is 'Mirage'?

Mirage is a style of blind that exudes elegance, charm and luxury.

The unique nature of Mirage fabrics brings enhanced light control, with the flexibility to have your blind fully open, fully closed or anywhere in between, giving additional options not available with your traditional roller blind.

The Style Studio Mirage Collection has **over 70 fabric options** to choose from! With a wide array of colourful plains, striking designs, and those beautifully structured textured weaves, there really is something for everyone.
