Measuring Information for Blinds

Information on Measuring

1. Always use a metal tape measure.
2. Decide whether you want to fix the blind on the inside or the outside of the window recess/reveal.
3. If inside the recess; measure the width and drop of the window in several places, always order the smaller size (all allowances will be made in the factory). Please state **recess size** when ordering.
4. If outside the recess; we recommend a 75mm overlap on each measurement, and order **blind size** (on a roller this will be the fabric/cloth width) please state **cloth size** when ordering.

Outside Recess

Inside Recess

Loveless Cook Blinds are produced within an operating tolerance of +/- 3mm (width) and +/- 3mm (drop).

Loveless Cook Blinds, Burnet Road, Sweetbriar Industrial Estate, Norwich, Norfolk, NR3 2BS
