How to Place Your Orders

Tel: 01603 789678 Email: sales@lovelesscookblinds.co.uk
Online: www.lovelesscookblinds.co.uk
Blind Matrix (Made to Measure Blinds): If you haven't got log in details please ask a member of our sales team.

Orders can be placed with us by telephone, email or visit our website. To provide identification at a later date in the event of queries, your order number must be given with each order. In the event of making a
telephone order or enquiry for price, information or delivery, please secure the name of the person you speak to.
This is essential if further queries or negotiations are to be conducted with maximum efficiency.

How to Pay

- Bank transfer
- Cheque
- Pro-forma
- Card Payment

If you don't have a credit account with us
you can pay by either cash, cheque or card.

Please confirm your payment with a written remittance.

Returns Policy

Customers must advise us in writing within 3 days of delivery with regard to shortages or wrong goods
delivered or damages in transit (which includes any visible damage to outer packaging). If returning goods please ensure they are adequately packed to avoid damage on their return to us. Goods will not be accepted back into stock without prior approval.
Invoice queries (i.e. surcharges, special prices etc.) must be made within 7 working days.

25% Handling Charge on any returns not regularly in stock (excluding made to measure products.)

LCB Delivery Van Charges	
Order under £250 nett to discount	£15.00
Order over £250 nett to discount	Free of charge
We run an order builder system (we collate your orders and dispatch them to you once a week). The order value can be achieved from any LCB product, however should you require a next day carrier Service this will be chargeable (see below carriage charges).	
Carriage Charges	
Carrier Service (Business Address)	£20.00
Carrier Service (Non-Registered Business Address)	£30.00
Carrier Service (Residential Address)	£30.00
Carrier Service - Romans and Curtains	Price on Application
Small Mailpack	£10.00
All curtain, roman blinds, linings and interlinings orders are priced on application. Blind orders exceeding a quantity of 20 are priced on application. Any orders with products over 200cm will be sent out on our once a week carrier service on a Wednesday. We run an order builder system (we collate your orders and dispatch them to you once a week). The order value can be achieved from any LCB product, however should you require a next day carrier service, please let us know when placing your order.	
Postage Charges	
Small Parcel - not exceeding: Height + Width + Depth no greater than 90cm with no single side longer than 60cm Weight up to 2kg	£5.00
Large Parcel - not exceeding: Length: 61cm Width: 46cm Depth: 46cm Weight up to 20kg	£7.00

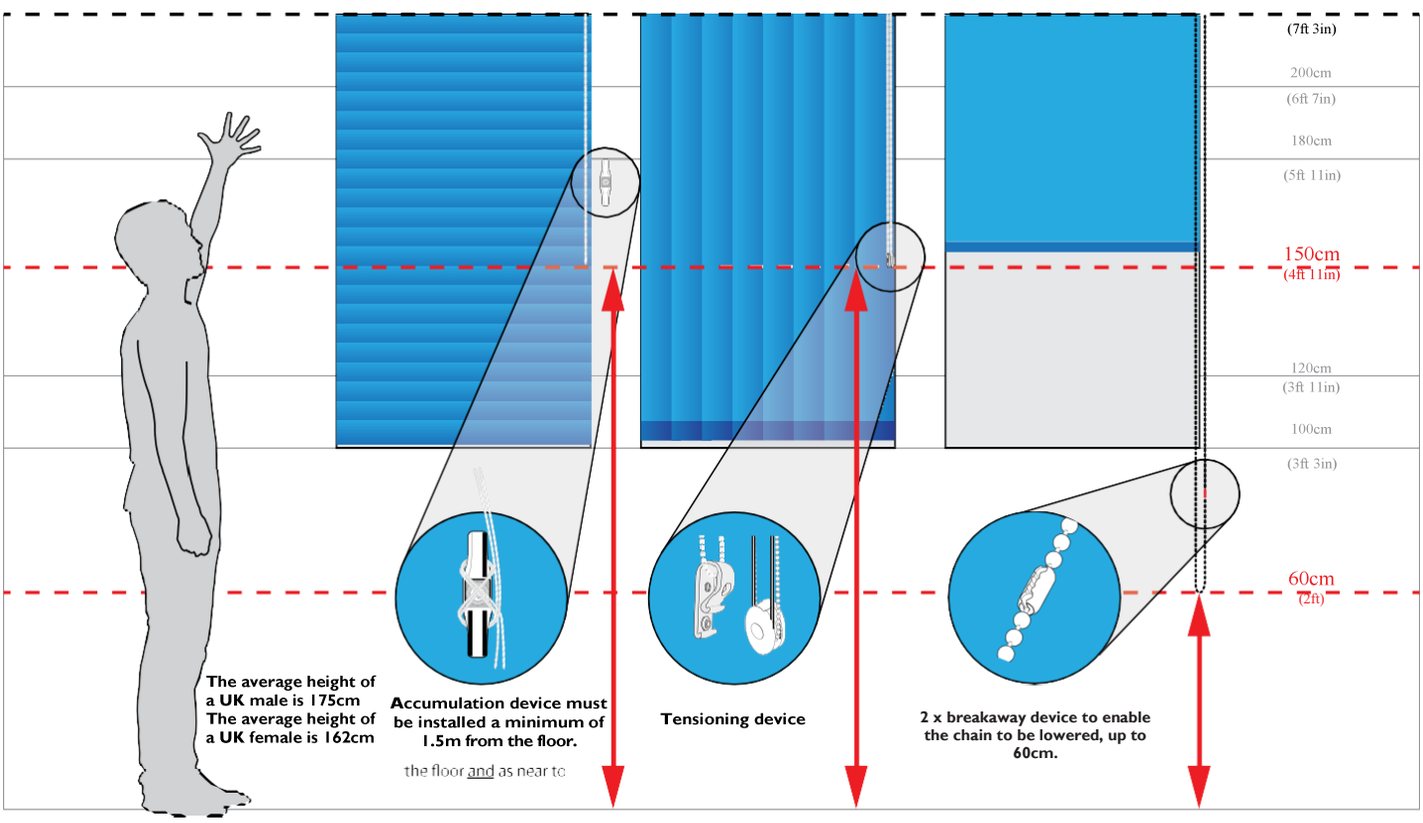

Deliveries are made using approved courier services, as well as our own delivery vehicles in certain locations. Customers are responsible for examining all goods immediately upon receipt. Any missing items or damage must be reported to us within 24 hours of delivery; claims submitted after this period will not be accepted. Where packaging shows signs of damage, deliveries must be acknowledged as damaged at the point of receipt to allow us to pursue the matter with the carrier. Clear photographs of any damage are required as supporting evidence.

All stated delivery dates are indicative only. Delivery times are not guaranteed, and we accept no responsibility for delays resulting from events outside our control.

Cord & Chain Length Installation Safety

Maximum Cord and Chain Lengths Where Fitting Height Is Unknown

When ordering blinds, it is essential to state the installation height. Not only is it a legal requirement, knowing the correct measurements will help to avoid making costly on-site amendments. According to new legislation your chosen surveyor or installer should know the correct height for corded blinds, but please don't leave it to chance.

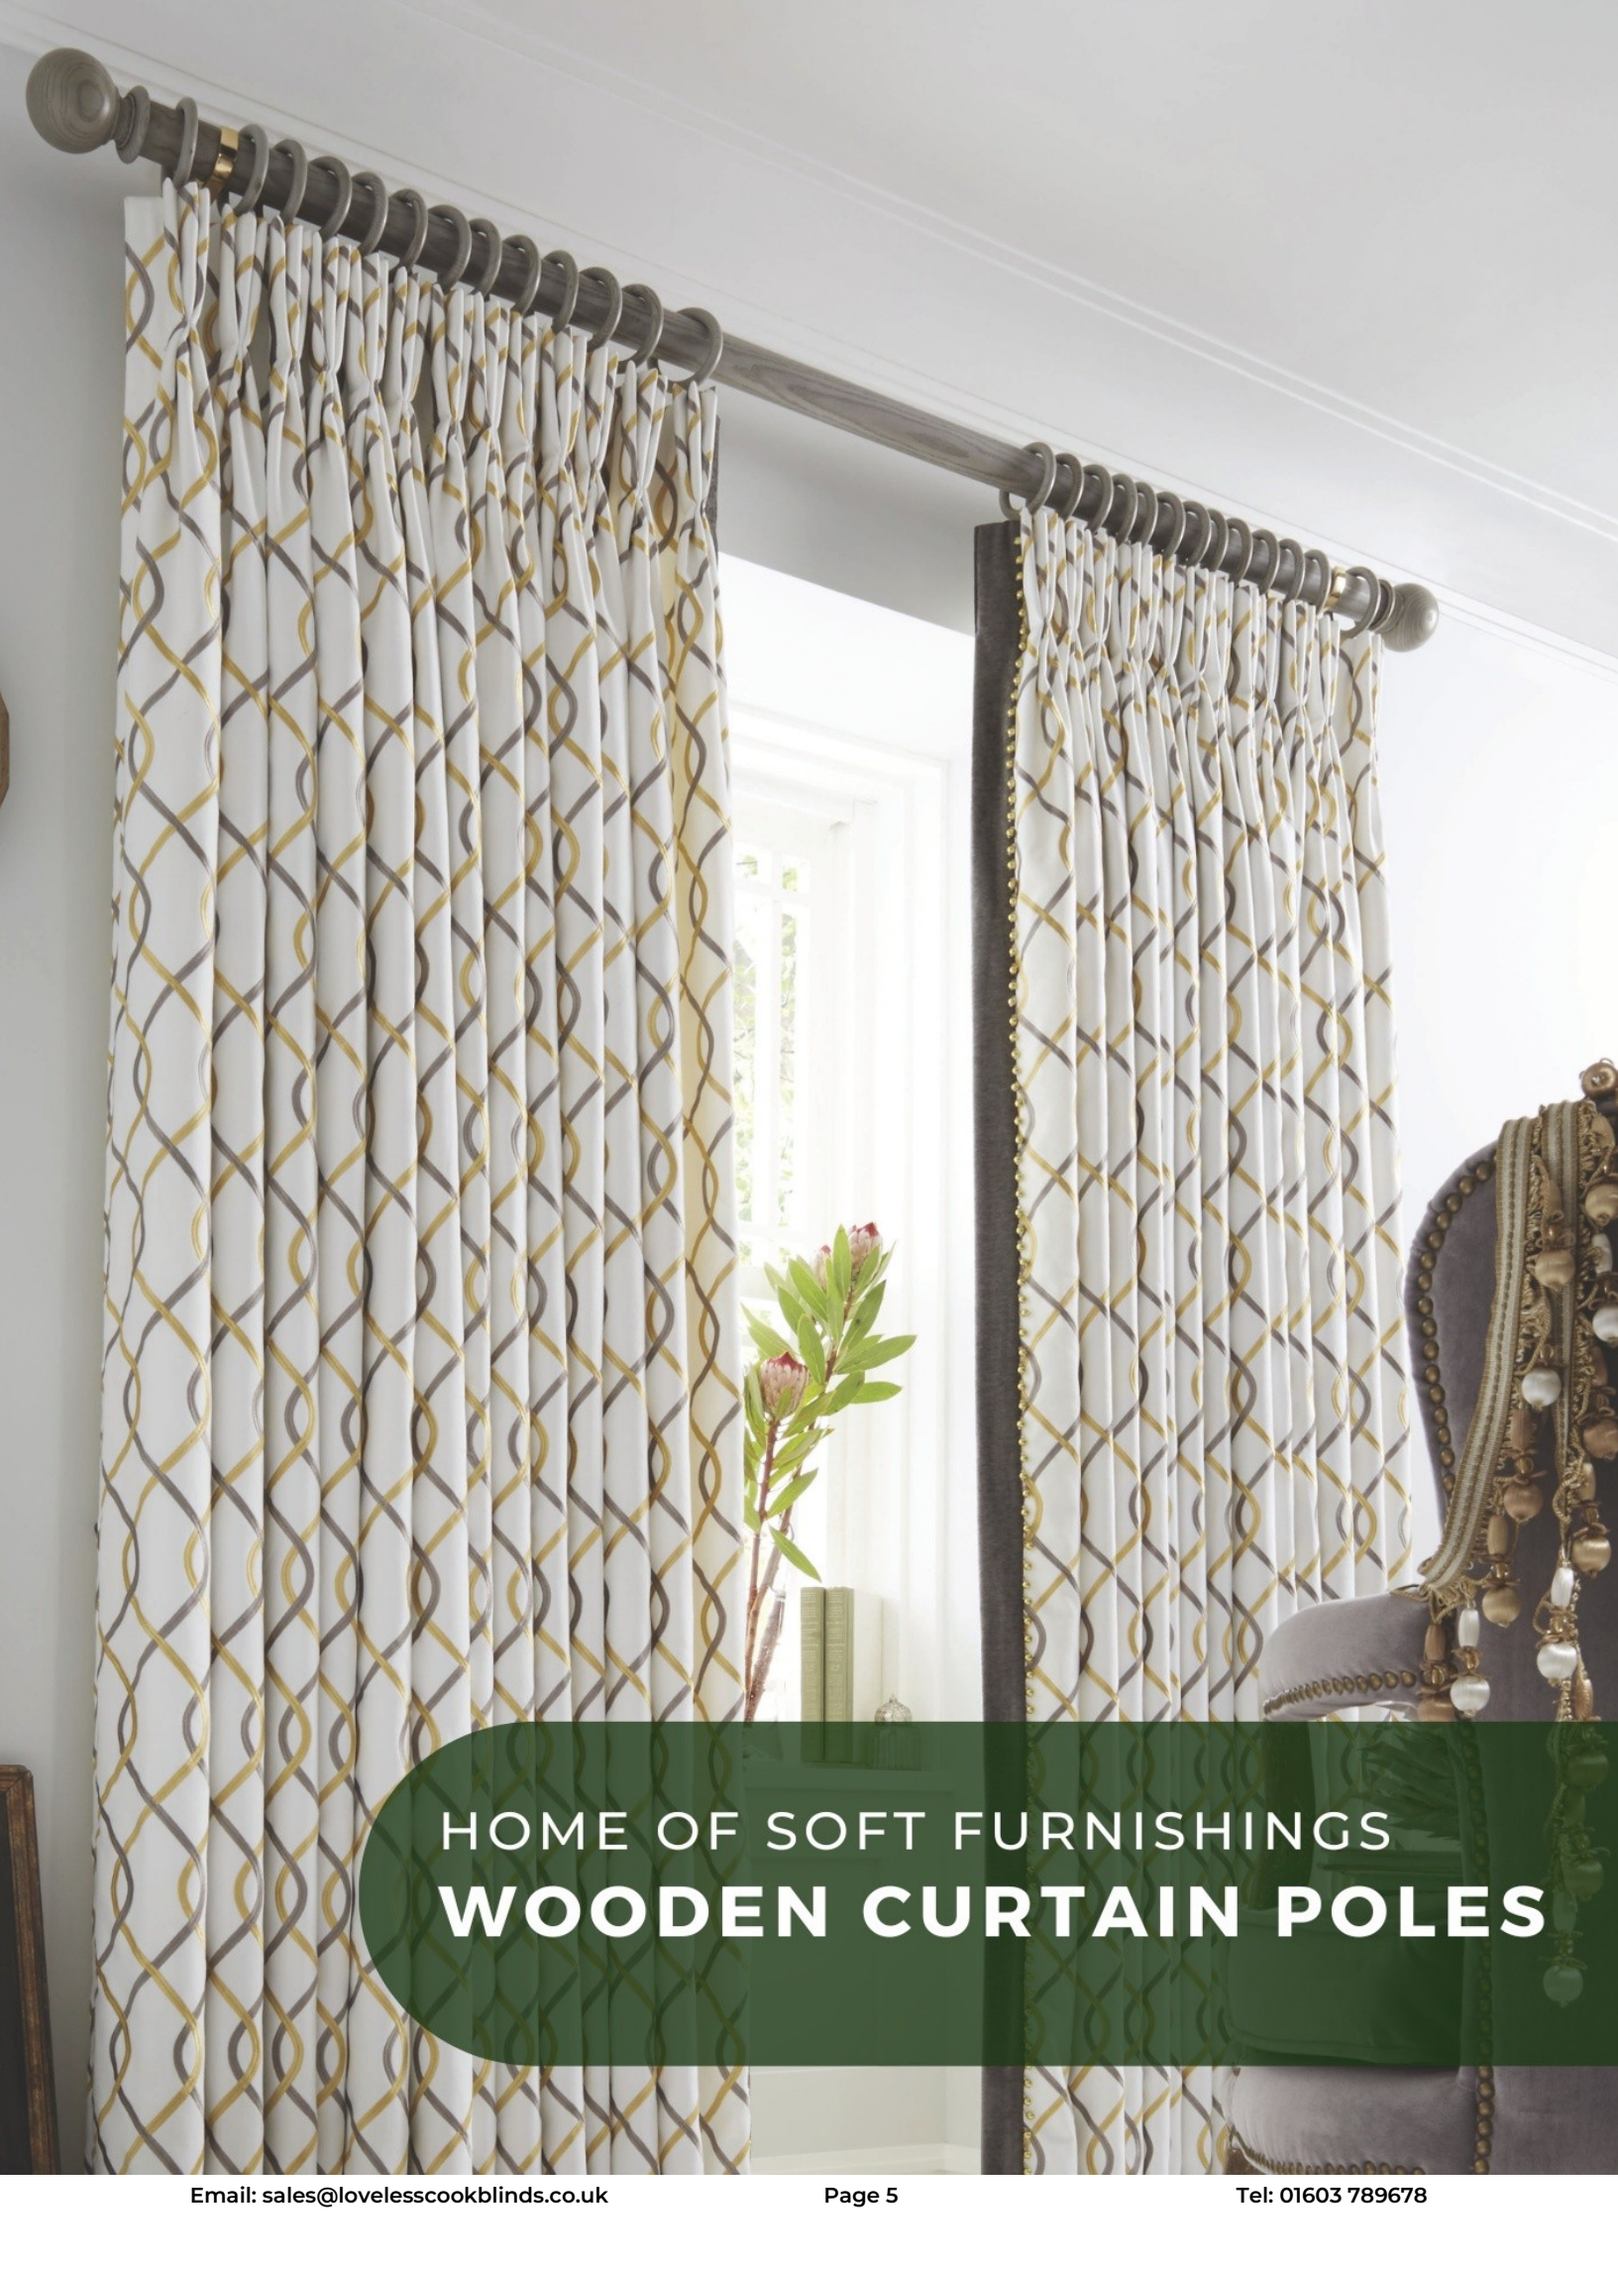

As a member of the British Blinds & Shutter Association (BBSA), Loveless Cook Blinds welcome new regulations that came into effect in 28th February 2014 and relate to the installation of window blinds. The BBSA has been campaigning for safer blinds and has worked with the UK government and EU standards bodies to develop new standards that will lead to safe blinds for children and vulnerable people being developed.

We fully support child safety regulations and as well as ensuring all the new window blinds we manufacture are compliant, we are also ready to help any customers who would like advice regarding the installation of appropriate safety devices for existing window blinds.

Please be aware on all orders placed which have a chain or cord operation, we will require an installation height which will then be calculated to ensure the chain or cord drop is no lower than 150cm from the floor. The only exception to this legal requirement is when a breakaway safety system is used on roller blinds (only), which then can allow for a chain to be as low as 60cm from the floor.

METAL CURTAIN POLES

25-28mm Room Darkening Poles

KG MEDIUM - HEAVY

PRODUCT INFORMATION

A curtain pole set with a plated finish. Designed for use with eyelet or tab top curtains.
To be installed outside the window recess.
This product is supplied with standard wall screws and plugs. You may need to purchase alternative wall screws and plugs depending on the surface type you are installing this product onto.

Size	Satin Silver	Antique Brass	Black
120cm-210cm	711005	711007	711009
170cm-300cm	711006	711008	711010

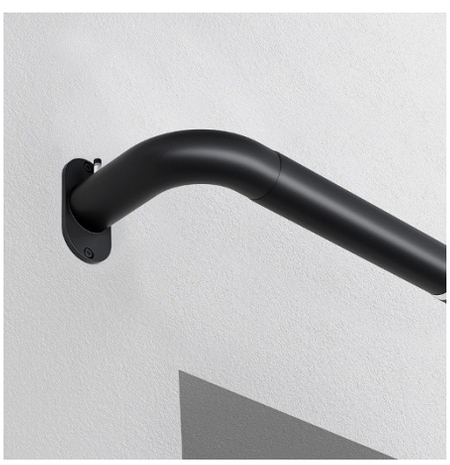

Satin Silver

Antique Brass

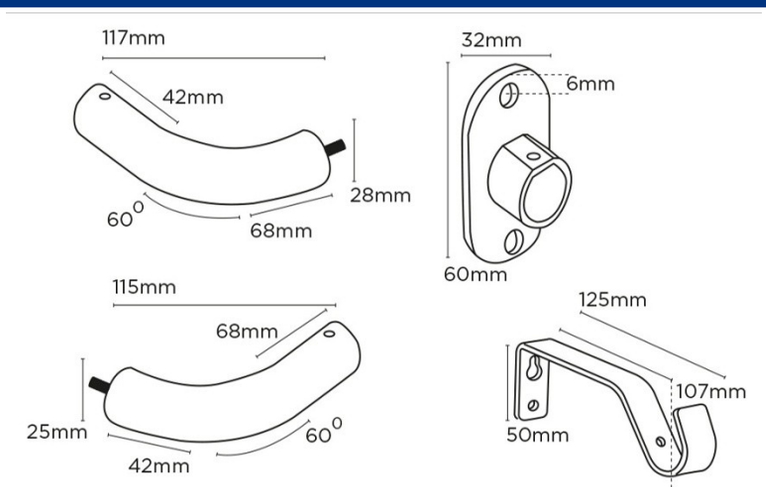

Black

The curtain pole curves at both ends, the curtains sit flush against the wall and wrap around the window from end-to-end, blocking out light and help insulate the room.

PRODUCT DIMENSIONS

METAL CURTAIN POLES

28mm Room Darkening Support

KG LIGHT - MEDIUM

PRODUCT INFORMATION

Transform your existing 28mm curtain pole into a room-darkening solution, helping to block out unwanted daylight while improving insulation and temperature control.
Simply keep your current 28mm pole and replace the end supports with 28mm room-darkening supports for a quick and effective upgrade.

Satin Silver

Antique Brass

Chrome

Black

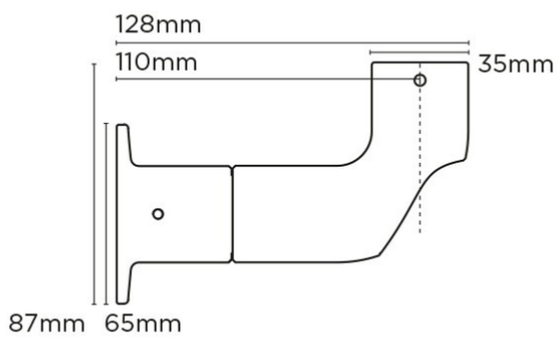

Remove your existing wall supports from both ends of your curtain pole and replace them with the 28mm room darkening supports.

METAL CURTAIN POLES

Eton Double Pole 28-19mm Collection

KG LIGHT - MEDIUM

PRODUCT INFORMATION

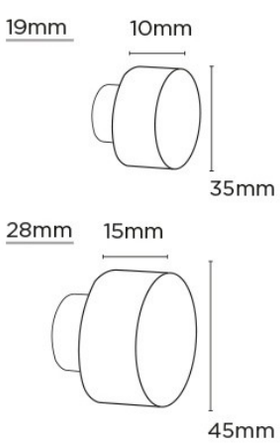

f you are looking for a stylish and elegant way to dress your windows, you might want to consider 28mm and 19mm double metal pole. This curtain pole allows you to create the perfect layered look to dress your window. By dressing the front pole, the 28mm with your main curtain choice and the back pole, the 19mm, whit a net or voile you can maintain your privacy and you look.

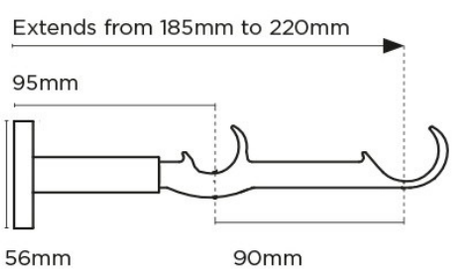

- The double wall supports hold a 28mm pole at the front and a 19mm pole at the back.
- Both curtain poles are fixed length and can be cut to size using a small hacksaw.
- The 19mm curtain pole is suitable for voile fabrics and tab top curtains, the 19mm curtain pole is not suitable for eyelet curtains.
- 19mm rings are not included but can be used to hang heading taped curtains, corresponding packs are sold separately, see below.

SILENT GLISS

RECESSED SILENT GLISS CURTAIN TRACKS

Understanding Recessed Curtain Tracks

Silent Gliss recessed curtain tracks are renowned for their sleek design and seamless integration into interior spaces. Here, we explain why choosing our recessed curtain tracks is becoming more popular than ever.

With decades of experience in supplying recessed curtain tracks, Silent Gliss can help you through the installation process. Download the Recess Curtain Track Guide for useful guidance on page - 38.

Why Recessed Curtain Tracks?

Flush Installation: The hardware is concealed and curtains appear to hang directly from the ceiling.
Minimalist Design: Windows appear larger and rooms more spacious.
Range Of System Options: Hand, cord and electrically operated.
Quiet Operation: Our 2C glider delivers smooth and quiet operation.
Durability: High-quality materials ensuring longevity and reliability over time.
Bendable: All Silent Gliss recessed curtain system options can be bent.

Direct Fixed Track

For lightweight curtains, the discreet, hand-operated track SG 6243 is available. Pre-drilled and supplied with small screws, it is directly fixed into a recess.

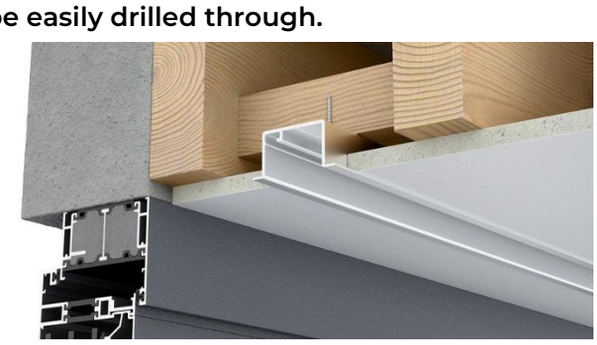

Dedicated Recess Profiles

For medium-to-heavy weight curtains we recommend using a system with a dedicated recess profile. The recess profile is fitted first, and main track is secured inside it.
- For hand operation choose between SG 6465, SG 6870 (medium weight) or SG 6970 (heavy weight) systems.
- For cord operation choose between SG 3870 (medium weight) or SG 3970 (heavy weight) systems.
- For motorisation choose SG 5600.

Recess profiles are not pre-drilled to allow flexibility for joist spacing. The profiles are made of aluminium and can be easily drilled through.

Recess Profile

Recess profile + track profile + insert

MOTORISED SILENT GLISS CURTAIN TRACKS

Silent Gliss Metropole range is available hand operated or cord operated, giving your customers the option. They are also compatible with Wave curtain heading systems and can be bent to any bay window or curved application. SILENT GLISS REMOTE OPTIONS

A New Range of Radio Handsets and Wall Switches

Silent Gliss, a pioneer in intelligent shading solutions, proudly introduces SG Control N – a collection of hand-held, and wall mounted radio transmitters that deliver effortless control over their motorised blinds and curtain tracks.

The newly launched handsets feature a sleek, modern design, available in black or white, with the flexibility of single -or six-channel configurations. Complementing the handsets, Silent Gliss also offers wall switches, available in white, with the same versatile functionality.

Radio Controls

SG 11931 - 1 Channel Remote

Channel: 1 channel
Frequency: 433 MHz
Colours: white, black

Features:
- Operates single system or operates one group up to 5 systems .
- Wall holder in corresponding colour.

SG 11932 - 6 Channel Remote

Channel: 6 channel
Frequency: 433 MHz
Colours: white, black

Features:
- 6 channel: operates up to 6 single systems individually.
- 6 channel: operates up to 6 groups of up to 5 systems individually
- Several channels can be operated simultaneously
- Saves the selection of channels

Radio Wall Controls

SG 11936 - 1 Channel Wall Switch

Channel: 1 channel
Frequency: 433 MHz
Colours: white

Features:
- Operates single system or operates one group of up to 5 systems

SG 11937 - 6 Channel Wall Switch

Channel: 6 channel
Frequency: 433 MHz
Colours: white

Features:
- 6 channel: operates up to 6 single systems individually
- 6 channel: operates up to 6 groups of up to 5 systems individually
- Several channels can be operated simultaneously
- Saves the selection of channels

MOVE BY SILENT GLISS

The Ultimate Smart Home Hub

Move Hub Features

App-Controlled Convenience – Designed for effortless navigation, Move offers seamless shading control via an intuitive app, making everyday automation easy and accessible.

Flexible Compatibility – Move works alongside the SG Control N range of handsets and wall transmitters, providing options for both switch-based and app control.

Group Operation – Group shading systems within rooms to operate multiple blinds or curtains simultaneously, creating tailored environments with a single touch.

Advanced Security – With two-way communication, users can monitor and adjust the position of curtains and blinds, ensuring total control even when away from home.

Smart Home Integration – At the heart of intelligent home automation, the discreet Move hub seamlessly connects motorised shading with other smart features for a cohesive experience.

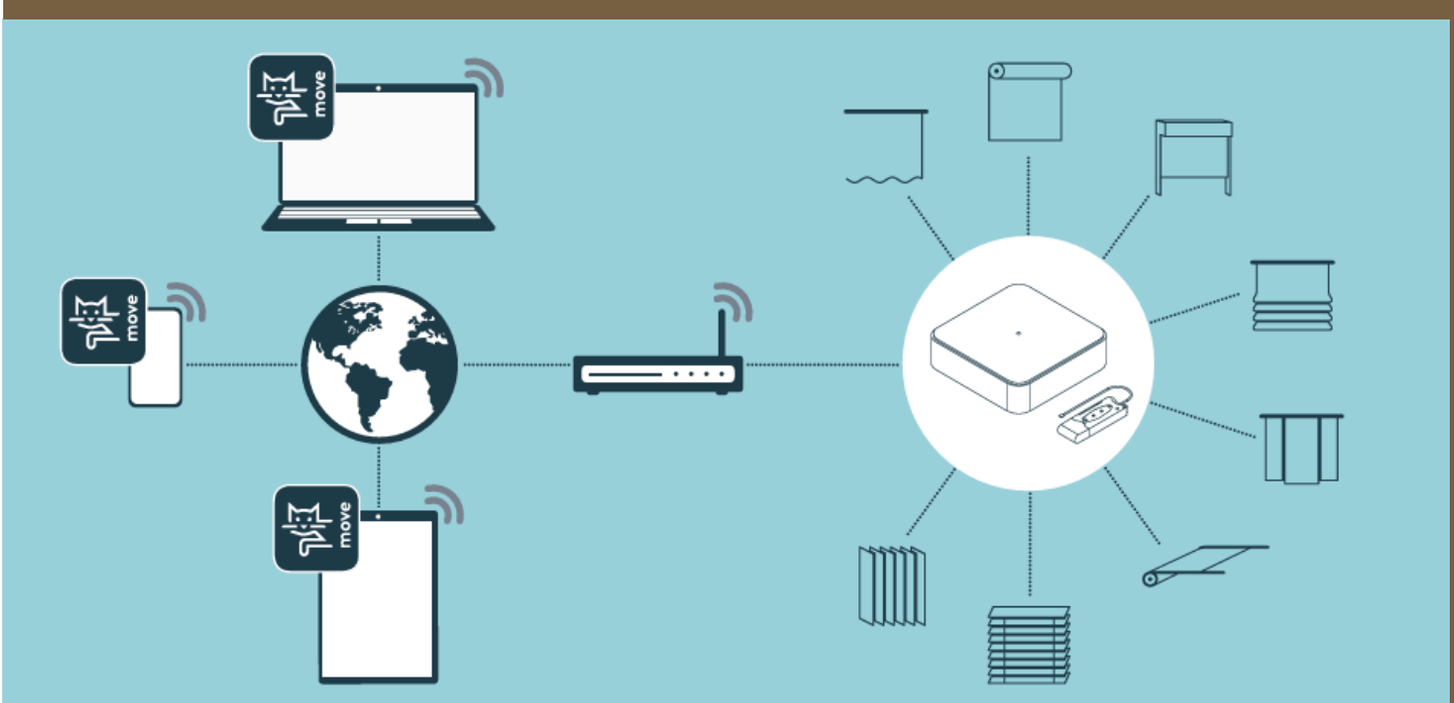

Energy Efficiency – Move optimises shading in real time, helping -2- to prevent overheating in summer and reduce heat loss in winter, enhancing both comfort and sustainability.

Frequency: 433, 868 MHz
Colours: black

Features:
- Operates up to 40 single systems individually
- App available for Android and IOS
- Various languages
- Programmable day and week, sunrise and sunset time
- Holiday mode
- Customised automation

With Silent Gliss Move you have total control!

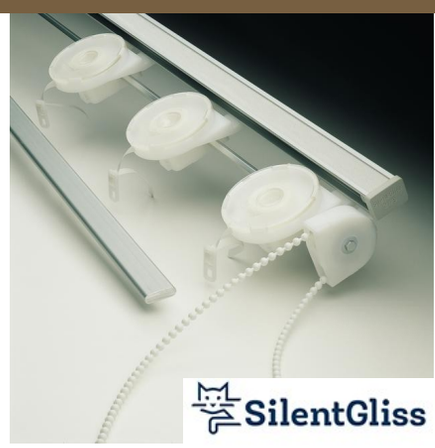

SILENT GLISS

SILENT GLISS ROMAN HEADRAIL

System 2120

Silent Gliss 2120 Blind Headrail System for Austrian, Roman and Festoon blinds. Simple to operate with robust bead chain operation. Suitable for domestic or contract use.

- Blinds stops at any required height without slippage or the need to 'lock-off'.
- System width up to 4.0m and drop up to 6.0m, max weight 8kg.
- Can be ceiling and wall fixing.
- Available in White only.

System 2304 (1:1) & 2305 (1:4)

The 2304 and 2305 Roman Blind systems are chain operated and available with 1:1 or 1:4 gear ratios. They have an integrated, magnetic child safety endset with all working parts concealed within the headbox for a sleek, minimalistic look.

- 2304 System width up to 2.0m and drop up to 3.4m, max weight 8kg.
- 2305 System width up to 3.0m and drop up to 3.4m, max weight 8kg.
- Can be ceiling and wall fixing.
- Available in White or Black.

All Roman Headrails can be made to exact size required, please state at time of ordering. We are not responsible for measurements given to us in error.

MOTORORISED ROMAN BLINDS

Battery Operated SOMFY Roman Blind Headrail

5 YEARS WARRANTY

somfy

RTS Radio Technology Somfy®

PRODUCT INFORMATION

Upgrade your Roman blinds with Somfy motorisation for consistently smooth, effortless operation. Enjoy a range of simple control options, including full smart home integration through the TaHoma app.

SOMFY TILT & LIFT 25 RTS

The Somfy Tilt & Lift 25 system is a compact, motorised solution designed specifically for Roman blinds, combining both lifting and tilting functions in one neat unit.

Here's what makes it stand out:

Dual functionality
It controls both the raising/lowering of the blind and the tilting of the slats or folds (where applicable), giving you better control over light and privacy without needing separate mechanisms.

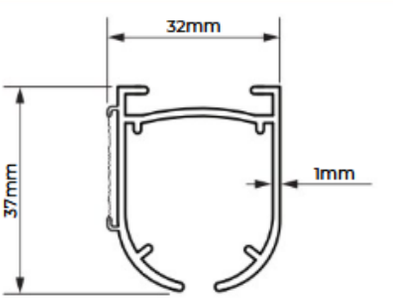

Smooth, quiet motorisation
Like most Somfy systems, it's engineered for quiet, reliable performance, so blinds move evenly and gently every time.

Compact 25mm design
The "25" refers to its slim profile, making it ideal for smaller or more discreet Roman blind installations where space is limited.

Smart control options
It can be operated via remote control, wall switch, or integrated into smart home systems using the TaHoma ecosystem. With the Somfy TaHoma Switch, you can control blinds through an app, set schedules, or automate them alongside lighting and heating.

Energy efficiency & convenience
Motorised operation helps reduce wear on fabrics and mechanisms, while also making it easy to adjust blinds regularly—helping manage light and temperature in your space.

Somfy Tilt & Lift 25 RTS Central Specification			
Min Blind Width	500mm	Battery Capacity	12V 800 mAh
Rated Torque	0.8 Nm	Noise Level	60 dB
Speed RPM	30 rpm	Frequency	433.42 MHz

ROMAN BLINDS & COMPONANTS

MOTORORISED ROMAN BLINDS

Battery Operated SOMFY Roman Blind Headrail

SOMFY TILT & LIFT 25 WIREFREE ZIGBEE

Somfy's Zigbee Roman blind systems are part of their newer generation of smart shading solutions, designed to give more advanced control, better connectivity, and deeper smart home integration than older radio systems like RTS.

Here's what makes it stand out:

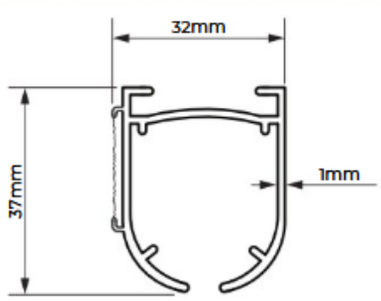

Smart home integration
Zigbee allows full integration with platforms like Google Home, Amazon Alexa, Apple HomeKit, and Control4 (via TaHoma), making it easy to automate blinds alongside lighting, heating, and more.

Two-way communication
Unlike older systems, Zigbee provides bi-directional feedback, meaning you can see the exact position of your blinds and battery status in the app.

Flexible power options
Available in both:
WireFree (battery-powered) – easy to install, no wiring
Mains-powered – ideal for larger or frequently used blinds .

Smart Plug Zigbee
A Zigbee smart plug is one of the simplest ways to turn any standard appliance into a smart device—perfect for lamps, coffee machines, or even integrating into systems like Somfy TaHoma. Because Zigbee creates a mesh network, each plug can improve signal reliability across your home.

Somfy Tilt & Lift 25 Wirefree Zigbee Specification			
Min Blind Width	500mm	Battery Capacity	12V 2600 mAh
Rated Torque	0.8 Nm	Noise Level	46 dBA
Speed RPM	30 rpm	Frequency	2.450 MHz

RODS & SUSPENSION

Portiere Rod

PRODUCT INFORMATION

Portiere Rods enables draught excluding curtains to be fitted to doors.

- Traditional and practical method of attaching draught excluding curtains to doors
- 20mm diameter brass cased steel tube. 16mm diameter bronze coloured steel tube.
- Complete with rings and bracket arms.
- Rod rises 12.5cm.
- Fixings and fitting instructions included
- The shorter arm fixes to the door frame, the longer hinged arm fixes to the door. When the door is opened or closed, the hinge will raise or lower the curtain from the floor, preventing the curtain from getting trapped in the doorway.
- Rod Length- 107cm- can be cut to a shorter length.

HOME OF SOFT FURNISHINGS
CURTAIN & ROMAN FABRICS

CURTAIN AND ROMAN COLLECTION

LCB Exclusive Broads Fabric Collection

PRODUCT INFORMATION

Our exclusive collection of stylish fabrics will bring your home to life, giving you a wide variety of vibrant options for any space.

- Suitable for Curtains, Romans and Upholstery.
- Available as cut length or supplied on a full roll (Roll meterage amount varies please contact LCB for further information).
- Available as fire retardant on request.

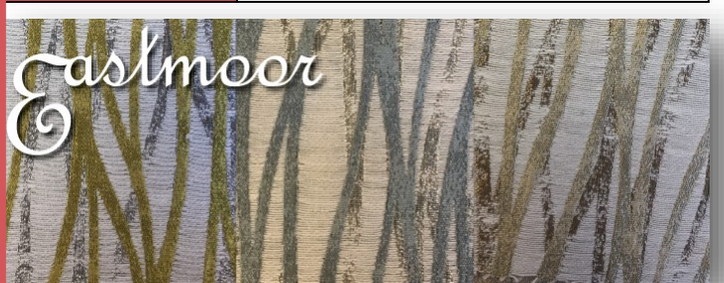

Due to tolerance levels in some fabrics LCB cannot be responsible for the squareness of patterns on materials using stripes or checked designs - you may be asked to sign a disclaimer to that effect. Whilst every effort is made to manufacture perfectly, we regret we cannot accept responsibility for the outcome of fabrics supplied. Before supplying

TERMS & CONDITIONS

Trading Terms and Conditions
All contracts for the sale or supply of goods by Loveless Cook Blinds, a trading division of Cooks Blinds & Shutters Limited ("LCB"), shall be governed exclusively by the following terms and conditions of trading ("these Terms").
1. Application of terms
a) These Terms supersede any terms and conditions proposed by the buyer, whether under any purchase order or verbally, and may not be varied except with the written consent of the Managing Director of LCB.
b) No order shall be deemed accepted by LCB until LCB delivers the Goods to the buyer. "Goods" means any goods agreed in the contract and supplied by LCB.
c) Any descriptions or illustrations contained in LCB's price list are intended only to give an approximate idea of the Goods described. They do not form part of any contract between LCB and the buyer.
d) "Contract" means any contract formed between LCB and the buyer for the sale and purchase of the Goods incorporating these Terms.

2. Price
a) Any prices quoted in a price list, catalogue, or advertisement of LCB are for guidance only and do not constitute an offer to sell at those prices. Unless otherwise agreed, the contract price shall be calculated in accordance with LCB's price list and payment terms in force on the date of despatch of the Goods. Prices may be changed by LCB at any time without notice.
b) The price for the Goods is exclusive of carriage, insurance, and Value Added Tax.

3. Delivery and passing of risk.
a) Whilst LCB will use reasonable endeavours to deliver within the time specified, all delivery dates are approximate. Time is not of the essence of the contract.
b) Goods leave LCB in good condition, and the buyer accepts all risk from the time the Goods leave LCB's premises. Risk is not affected by any transport insurance taken out by the buyer.

4. Passing of property
a) Title to the Goods shall remain with LCB until the buyer has paid in full. Until such payment is made, the buyer shall hold the Goods as fiduciary agent and bailee for LCB, keeping them separate from its own property and that of third parties, properly stored, protected, and insured. If the Goods are processed into other goods before payment is made, ownership of such goods shall also vest in LCB. The buyer shall hold such goods, proceeds of sale, or rights arising from sale as trustee for LCB.
b) The buyer's right of possession of the Goods shall terminate immediately if: the buyer becomes bankrupt, makes an arrangement with creditors, or (if a company) enters liquidation, administration, or has a receiver appointed.
c) If payment is overdue or an event in clause 4b occurs, LCB may recover the Goods and enter the buyer's premises for that purpose. The buyer authorises LCB or its agents to enter any premises where the Goods may be located.
d) Any loss sustained by LCB upon recovery of the Goods shall be paid by the buyer.
e) LCB may make a claim directly against the buyer's customer for unpaid sums. Any monies recovered in excess of the amount owed shall be returned to the buyer, less costs and expenses.
f) Failure by LCB to enforce these rights does not constitute a waiver.

5. Next day delivery
a) Subject to clause 11, LCB will use reasonable endeavours to deliver in-stock orders placed before 2.00pm on a working day for Next Day Delivery (excluding offshore UK locations, the Highlands and Islands, Saturdays, Sundays, and Bank Holidays).
b) In the event of non-performance, the buyer must notify LCB by 4.00pm on the next working day by telephone, email, or fax. Neither LCB nor its agents shall be liable for any costs or losses resulting from late or failed delivery.

6. Delivery charges

- LCB Delivery Van - Free next day delivery on orders over £250 (net of discount). Orders under £250 (net of discount) will incur a £15.00 delivery charge.

We run an order builder system (we collate your orders and dispatch them to you once a week). The order value can be achieved from any LCB product, however should you require a next day carrier service this will be chargeable (see below carriage charges).

- Next day Carrier Service (Business Address) - £20.00
- Next day Carrier Service (Non-Registered Business Address) - £30.00
- Next day Carrier Service (Residential Address) - £30.00

Curtains, roman blinds, linings and interlinings orders are priced on application.
Blind orders exceeding a quantity of 20 are priced on application.

Any orders with products over 200cm will be sent out on our once a week carrier service on a Wednesday. We run an order builder system (we collate your orders and dispatch them to you once a week).
The order value can be achieved from any LCB product, however should you require a next day carrier service, please let us know when placing your order.
All delivery charges are subject to change.

7. Claims and liability
a) Each delivery is a separate transaction for which payment must be made. Failure of one delivery shall not affect the overall contract.

b) Claims for missing, damaged, or incorrect Goods must be notified to LCB and the carrier within 24 hours of receipt, and confirmed in writing within 3 days. Non-delivery must be reported in writing within 3 days of the invoice date. In the absence of a claim, the Goods are deemed delivered as per the contract.

c) LCB warrants that the Goods will be of satisfactory quality upon delivery within the meaning of the Sale of Goods Act 1979 (as amended) and suitable for their stated purpose. Claims must be made within 3 days of receipt, and Goods must be available for inspection. LCB is not liable where Goods have been altered, processed, cut, or installed. Liability is limited to refund or replacement, with no liability for consequential loss.

d) LCB is not liable for loss, damage, or deterioration arising from improper use, storage, or application.

e) Quotations are conditional on stock availability. LCB is not liable for short delivery.

f) Specifications for size or colour are subject to reasonable commercial variation unless otherwise agreed.

g) Goods cannot be returned without prior authorisation from LCB and a valid Return Reference Number. Goods must be packed for safe transport and accompanied by all required docu of any such Goods which have been subsequently altered, processed, cut and/or installed. In any event LCB's maximum liability for breach of this warranty will be limited to repayment of the purchase price or replacement of the Goods and under no circumstance will any liability be accepted for any consequential loss howsoever occasioned.
d) LCB shall not be liable for any loss, damage or deterioration of the Goods arising directly or indirectly from the adverse use, application or storage of any Goods other than in accordance with good trade practice.

7. Claims and liability (Continued)
d) LCB is not liable for loss, damage, or deterioration arising from improper use, storage, or application.
e) Quotations are conditional on stock availability. LCB is not liable for short delivery.
f) Specifications for size or colour are subject to reasonable commercial variation unless otherwise agreed.
g) Goods cannot be returned without prior authorisation from LCB and a valid Return Reference Number. Goods must be packed for safe transport and accompanied by all required documentation.

8. Liability
a) This clause sets out LCB's entire financial liability to the buyer in respect of:
i) any breach of these Terms;
ii) any representation, statement, tortious act, or omission (including negligence) arising out of the Contract.
b) Except as expressly stated in these Terms, all warranties, conditions, or terms implied by statute or common law are excluded to the fullest extent permitted by law.
c) Nothing in these Terms excludes liability for death or personal injury caused by LCB's negligence.

9. Termination
LCB may terminate the contract if the buyer breaches its obligations, if any event under clause 4b occurs, or if LCB considers the buyer's financial position unsatisfactory. All outstanding invoices shall become immediately due and payable.

10. Payment

a) Payment is due on or before the 30th day of the month following the invoice date. Payments may be made by credit card, debit card, or cheque

(quoting account number and remittance advice).

b) Non-payment entitles LCB to recover monies owed and suspend transactions.

c) Payment is not deemed received until cleared funds are received by LCB.

d) Time for payment is of the essence.

e) All sums become due immediately upon termination of the contract.

f) The buyer may not set off any sums against payments due to LCB.

g) VAT is charged at the rate applicable on the invoice date.

h) If delivery is delayed at the buyer's request, LCB may still invoice for full payment as if delivery had occurred.

11. Force Majeure

Performance of the contract may be cancelled or varied by LCB if prevented or hindered by events beyond its reasonable control, including but not limited to: labour shortages, strikes, lockouts, fire, flood, drought, war, legislation, or other events of force majeure.

12. Communication

LCB may monitor, record, and store telephone, email, or other communications for training and service improvement.

13. Law

This contract is governed by English law, and the buyer agrees to submit to the non-exclusive jurisdiction of the English Courts.

14. General
If any provision of the Contract is found to be wholly or partly illegal, invalid, void, voidable, unenforceable, or unreasonable, that provision shall be deemed severable to the extent required. The remaining provisions shall continue in full force and effect.

15. Warranty
a) Unless otherwise stated in writing, LCB warrants that all Goods supplied shall be free from defects in materials and workmanship for a period of 12 months from the date of delivery.
b) Products incorporating Louvolite or Somfy motors carry an extended manufacturer's warranty of 5 years from the date of delivery, subject to the terms in this clause.
c) All warranties provided are return-to-base. The buyer is responsible for returning the Goods to LCB for inspection and, if applicable, repair or replacement.
d) The warranty does not cover: Labour costs for removal, reinstallation, or refitting of the Goods.
Any costs incurred by the buyer or end customer for loss of use, inconvenience, or consequential losses.
e) LCB's obligation under this warranty is limited, at its discretion, to repair, replacement, or refund of the Goods proven defective within the warranty period.
f) The warranty shall be void where Goods have been improperly stored, installed, used, altered, or damaged by accident, neglect, or misuse.
